### June Farm Prices Received Index Up 7 Points

The preliminary All Farm Products Index of Prices Received by Farmers in June, at 181 percent, based on 1990-1992=100, increased 7 points (4.0 percent) from May. The Crop Index is up 12 points (6.0 percent) but the Livestock Index was unchanged. Producers received higher prices for milk, corn, and broccoli, and lower prices for cattle, lettuce, wheat, and strawberries. In addition to prices, the overall index is also affected by the seasonal change based on a 3-year average mix of commodities producers sell. Increased monthly

marketings of wheat, hay, grapes, and peaches offset decreased marketings of corn, cattle, oranges, and milk.

The preliminary All Farm Products Index is up 46 points (34 percent) from June 2010. The Food Commodities Index, at 172, increased 7 points (4.2 percent) from last month and 38 points (28 percent) from June 2010.

### Prices Paid Index Unchanged

The June Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW) is 204 percent of the 1990-1992 average. The index is unchanged from May but is 23

points (13 percent) above June 2010. Higher prices in June for complete feeds, feed grains, nitrogen, and other services offset lower prices for feeder cattle, diesel, feeder pigs, and gasoline.
